

# Confined Space Management

Elite Safety Services Inc. is a Canadian company that provides customized safety training and standby services to Industrial, Construction, Manufacturing, and Energy sectors. Owned and operated by former Professional Firefighter Paramedics, our company provides a level of professionalism and expertise only gained through real world experience.

Elite Safety Services Inc. specializes in training, turnaround and rescue activities. We have provided Paramedics, Confined Space, Rope Rescue Technicians and National Construction Safety Officers to some of Canada's most prominent companies. On client sites, our usual roles include site safety, drug and alcohol testing, fit testing, training, confined space rescue, paramedic level care and air trailer provision.

We understand the challenges in maintaining compliance that employers across Canada face. What Elite Safety Services Inc. is proposing is a level of care that exceeds expectations, and is available exclusively to your company. There are no "out of service" issues and the skill sets offer a level of service virtually unheard of within Industry. This paper will outline the benefits of our company and the service that we are capable of.

## **Benefits of Working with Our Company:**

One of the most significant benefits of choosing Elite Safety is the fact that we have extensive real world experience. We are established and able to function independently or as a member of a team to meet your safety requirements through utilization of our staff. Additional benefits of our company include:

1. We belong to ISNetworld and Comply works vendor management systems which ensure our continuous compliance with our clients and their mandates. With all of our active clients, we possess and ensure an "A" rating.

2. All Elite Safety Services Inc. staff are covered through the applicable Provincial Workers Compensation Board.
3. Our “Facility Maintenance” teams are able to provide Confined Space Management or Rope Access to clients working in high risk work locations.
4. All medical treatment, Drug and Alcohol testing and Respiratory Protection Program is overseen by our Medical Director.
5. Our company has Commercial General Liability and Errors and Omissions insurance through HUB International in Winnipeg, Manitoba.
6. We are a COR certified company through the Construction Safety Association of Manitoba.
6. We are one of the few service providers capable of Primary Care Paramedic trained staff with Advanced Life Support capabilities for industrial locations if required by the client.

## Confined Space Management:

Working within a confined space can often be an overwhelming task. Elite Safety Services Inc. can help “**Facility Maintenance**” by administering our “**Confined Space Management**” program at your work locations. Whether it’s day to day maintenance, a quick inspection or a significant expansion, our staff will ensure your compliance with safety and health legislation and will complete the required tasks within the confined space.

When utilizing our “**Facility Maintenance**” services, our Confined Space Management service will include:

1. Identification and isolation of the confined space.
2. Completion of a “Confined Space Assessment” through utilization of our National Construction Safety Officers.
3. Performing all required job hazard assessments, safe work procedures, entry permits and rescue procedures.
4. Provision of skilled trades to perform the work if required.
5. Coordination and “on-boarding” of sub-contractors if required.
6. Entry equipment, Air monitoring and Accountability requirements

7. Our teams have wireless transmitters enabling live content with immersive point of view images for those outside the space if required.
8. Development of rescue procedures and rescue equipment
9. Confined space entrants, attendants, NCSO's and rescue trained staff.

Our company is not trying to grow into the provision of this service. Whether we are working alongside your staff or independently, our overall management of the confined space activities will ensure the safety, health and protection of all involved with the task at hand.

## In Summary:

For additional information on “**Facility Maintenance**” services, or our “Confined Space Management” please feel free to contact us. We would appreciate an opportunity to sit down with you to discuss our staff, our current clients and your expectations.

Sincerely,

ORIGINALLY SIGNED

Jeff Fehr  
Operations Supervisor
