APPLICATION CHECKLIST

- Signed Application Checklist
- Application Form: Completed in full
- Current Basic Life Support Level CPR/First Aid Certificate
- Intermediate (Standard) First Aid Certificate
- Copy of your valid Manitoba Class 5 Driver's License
- Criminal Record Check with Vulnerable Sector within 12 months of Application
- Adult Abuse Registry Check within 12 months of Application (Original Copy)
- Child Abuse Registry Check within 12 months of Application (Original Copy)
- Completed Immunization Form - All fees associated with immunizations to be covered by the student
- Proof of ELR Completion or Highschool Transcript from an exempt Country

All documents must be submitted in-person to Elite Safety Services Inc. by scheduled appointment only. Walk-in submissions will not be accepted.

At the time of your appointment, all documents will be reviewed by the Training Coordinator. Should any information be missing or need further review, you will be required to book an additional appointment. All program spots will be reserved on a "first come, first serve" basis. Once all documents are completed in full, a \$200.00 deposit will be collected to reserve your spot in the program. Spots will not be confirmed until all documents are submitted and the deposit has been collected.

Appointments can be made by calling 1-877-726-9101 or via email to training@elitesafetyservices.ca

REQUIRED IMMUNIZATIONS & ANTIBODY TESTING

REQUIRED immunizations for all students participating in practice education environments within the Elite Safety Services Inc. Emergency Medical Responder & Primary Care Paramedic Programs. Students are expected to provide documentation of immunization or demonstrated immunity, as outlined below.

- Tetanus, Diphtheria, Pertussis

Complete primary series of combine tetanus and diphtheria toxoids and booster given in accordance with NACI guidelines. Manitoba Health recommends booster for Adults who are due for a Td booster and have never previously received an Acellular Pertussis Vaccine as an adult. TD boosters are required for adults every 10 years.

- Varicella (Chicken Pox)

Documentation of VZV IgG; or documentation of varicella vaccine, given in accordance with NACI guidelines.

- Measles, Mumps, Rubella (MMR)

Rubella - born before 1970; or documentation of rubella-containing vaccine given in accordance with NACI guidelines or documentation of rubella specific IgG.

Measles - born before 1970; or documentation of measles-containing vaccine given in accordance with NACI guidelines or documentation of rubella specific IgG.

Those who are at greatest risk of measles exposure (travelers to destinations outside of North America, Health Care workers, students in post-secondary educational settings and military personnel) should receive 2 doses of MMR vaccine or laboratory evidence of immunity.

If only one documented MMR and no laboratory evidence of immunity, test for IgG antibodies and then administer MMR following. If results indicate immunity, no further action is required. If negative, proceed with a second dose of MMR in 4 weeks. No further antibody testing is required after 2 doses.

- Hepatitis A & B Vaccine

Rapid dosing is not recommended, this may take up to 8 months. Titre levels are to be drawn 6 weeks after dose #3, test for surface antibody, not surface antigen.

- Hepatitis C

Baseline testing for antibody to Hepatitis C virus. Results must be within past year.

- Influenza

Annual influenza vaccine is required.

- Tuberculosis

2-step Mantoux testing only, vaccination is not required. If previous 2-step baseline was performed, please include the dates and results. If negative, repeat only 1-step Mantoux if testing not within the past year.
